PROFESSIONAL EXPERIENCE

MELODIX | AUSTIN, TX | 2022 – PRESENT

Full-Stack Developer

Melodix is a thriving platform that connects local musicians to potential listeners and opportunities. Full Stack developer contributes to creating an efficient, intuitive, and aesthetically pleasing web application.

- **Developed high-performance, conversion-optimized landing pages** using React and Next.js to attract and engage potential users.
- **Collaborated with UX designers** to translate Figma prototypes into responsive, accessible, and visually appealing web interfaces.
- **Optimized website performance** through techniques like image optimization, code minification, and caching to improve load times and user engagement.
- **Implemented robust testing frameworks** (Jest, Cypress, StorybookJS) achieving 95% code coverage, ensuring code quality, and accelerating development cycles.

CYPHEREYE | SAN FRANCISCO, CA | 2022 – PRESENT

Mobile Developer

CypherEye is a breakthrough platform offering secure authentication capabilities. Mobile Developer delivers a unique service proposition by developing demo and sales applications with an uncompromised focus on security and user experience.

- **Optimized codebase** for improved performance and maintainability, resulting in faster development cycles.
- **Collaborated closely with marketing teams** to understand business objectives and translate them into effective digital solutions.
- **Developed secure and user-friendly mobile applications** using TypeScript and ReactNative with a focus on privacy and data security.

WEPAIR | AUSTIN, TX | 2021 – 2022

Freelance Web Developer

WePair is a dynamic platform providing communications between families and their children/grandchildren during Covid.

- **Integrated secure payment solutions** (Stripe, PayPal) to enhance user experience and streamline checkout processes.

PROJECTS

LAMPLIST lamplist.nickburt.dev | github.com/nbur4556/lamplist-jobs

Developed a web application to help job seekers find relevant opportunities.

- **Leveraging Lamplist Method:** By incorporating the Lamplist method, the application aids users in finding potential places of employment, offering an edge in the challenging job market; streamlined job discovery, increasing user success rates.

DEV ISSUE TRACKING dev-issue-tracker.onrender.com | github.com/nbur4556/issue_reporter

Built a web application to help development teams manage and prioritize tasks.

EDUCATION & PROFESSIONAL DEVELOPMENT

Full Stack Web Development Certificate | University of Texas | Austin, TX | 2020

Associate of Science in Digital Media | Utah Valley University | Orem, UT | 2017
